**Subject:** RE: Our meeting of members today resolved that I ask you to agree to things.

I don't think that someone implicit in the fiasco that was criticised by the Commission is in a position to give me any advice about attempts to hurry you slothful lot up not assisting in resolving this matter. You were part of the incompetent chain.

We have a Statement and Recommendation that damns the Council for getting it wrong and taking an inordinate amount of time to deal with it. And a recommendation that you sit down with the unions to review how you handle these things.

You also have a unanimous resolution of my members that they won't participate in any investigation until your processes/policy is reviewed.

Wow, the letter was ready for sending yesterday. Then I guess I might get it by the end of what, this month? This year?

I am away next week but if I don't have it by Wednesday I will get the President to relist the dispute.

Mr Robertson

I note Your comment.

In respect to your comment about GCC all I will say is that such comments do not assist in resolving this matter.

The second point is I saw a copy of the letter in response to your letter ready for sending yesterday. There were some item in that letter of yours that required verification.

Terry Thirlwell

**Subject:** FW: Our meeting of members today resolved that I ask you to agree to things.

I'm not going to keep chasing Michele here because this dispute was all about how hopeless Gosford is at, amongst other things, dealing with things in a timely manner.

When will we get the response to this letter?
